#### The News.

Our Congressional news this morning is of ne special interest. It has been intimated in the Senate that a direct vote for the admission of Kensas under the Lecompton Constitution, would be called for on Monday next. Senator Doolittle resumed his speech on the Kansas question yesterday. The investigation of the Kansas election frauds, it is said, reduces the vote of the 21st of December from 6798 to 2500. Mr. Green has arrived at Washington with the Journal of the Lecompton Convention and the the House Select Committees, will make their reports it is expected, next week. The Mormon delegate in Congress, Mr. Bern.

from Europe. The commercial reports do not materially differ from those of the previous arrival. The political news from Great Britain is of rome importance. Lord Palmerston-the Government-was defeated in the House of Commons on the bill to amend the laws relating to murder and conspiracies. This is the bil proposed to further the despotic riens of the upon as a matter of vital importance, exhibiting as it does the sentiments of the English people towards Louis Napoleon. In Belglum and Sardinia the French Emperor has carried his point, owing no doubt to the weakness of these powers, and Paris is subjected to military occupation in the revival of the Governorship of the City, an office which was first instituted in the days of the old Empire. The capture of Ferexabad and Futtaghar, by Sir Colin Campbell, is confirmed, We have no later news from China.

We have news from Havana to the 2d instant, which is of little importance either politically or commercially. The health of the city is reported

These Companies were thus disbanded by their own action. The Press says, "We believe the action of these Companies will be of bene fit to the Fire Department and to the City, and their prosence at lives can be dispensed with .--Our citizons will find no difficulty in giving Mr. Sweenie an adequate force to receive and obey his orders at fires, and as we know that all suder him must oboy, we feel grateful, on the whole, that the mal contents have weeded theinselves out of the Department thus early,"

SMART COUNTING. -At the election, December 21, in Kansas, on the Lecompton, four notorious precincts returned a vote amounting in the aggregate to 3,847, which being investigated by taking the testimony of the judges and clerks who held the election, now turns out thus:

RYAN and EMMONS. counsel for the Contractors, granted an order to dissolved, and appointed 10 c'clock Monday S. Brown and Jason Downer, counsel for the Tax-payers, appeared and urged a postponement of the hearing till Saturday next, on the ground

that they did not receive notice of the order till 7 P. M., Saturday, and that they needed time to procure the attendance of witnesses and prepare arguments. The counsel for the Contractors urgently resisted the motion for pestponement, and insisted that the argument should proceed forthwith. The Judge, after some discussion between the opposing Counsel, postponed the further hearing till 2 o'clock this (Tuesday) evidence of the frauds. The three branches of afternoon; remarking that the Circuit Court was about to adjourn, and that he had expected to State, get through with the business to-day. It is probable that the argument will occupy a day or

PLEASANT WEATHER, - Yesterday the weather was more mild, and the air had more of the feeling of balmy Spring, than we have enjoyed since the pleasant days of January and the early part of February. The sky was cloudless, and the sun's rays had perceptibly modified the cold winds which we had for several days previous. But we will not be too extravagant in expressing our delight at the prospect of an early Spring, for Jack Frost may yet conclude to linger a while longer with us, and again em-Emperor of the French. THE NEW DAILY PAPER.-The first number of the "Milwaukee Daily Times," a Democratic Anti-Lecompton paper, made its appearance Yesterday. It is a neat looking six column sheet, well filled with news and reading matter, and quite carnest in denouncing the Lecompton Villuiny. It carries at its head the name of STE-PHEN A. DOUGLAS for President in 1860. The Times is published by Mesers. Enviso, Buggion & Co. The number issued yesterday was intended as a specimen only, but the regular daily issue of the paper will commence in a few days,

The party will be a large one, and no doubt the old folks will have a right morry time of it. The number of tickets sold is limited to correspond with the size of the hallso that there will not be a "jam." All who attend, we understand, will be required to unmasque after midnight. We are requested to state that orders for carriages may be left during the day at Butler & Post's Livery Stable, or in the evening at the

"It is whispered in social circles here that the defeat of the Committee of Thirteen on the Kansas bill, which the Administration lost by one vote, is attributable to a lady, daughter of one vote, is attributable to a lady, daughter of one of our cabinet ministers. One of her victims, a prominent, but "doubtful member" from the North, who is sighing himself into premature winkles and ugliness, conceiving on the evening before the vote was taken, that Miss—evine ded a preference for a rival member, would have his revenge by voting against the Administration; the result of which was, the bill was lost! [A word in your ear.] That member's fate is sealed, for we saw Miss—an hour ago, and had she swallowed all the pickles of her father's last state dinner, her feelings could not have been more acidulated against him for his re-oreamcy.

PUBLICHERS AND PROPRIETORS. 

BUTTS KING .....Editor.

TERMS OF THE SENTINEL. Daily \$7,00—Tri-Weekly \$4,00—Weekly \$1,50 INVARIABLY IN ADVANCE.

#### MILWAUKEE: TUESDAY MORNING, MARCH 9.

The "News" and the Harbor.

The News of Sunday is at great pains to define its own position on the Harbor question and to misrepresent that of the Sentinel. For itsell, the News objects to being counted "with the advocates of Hasbrouck and Conso's claim as it stands; " avers that it " knows the contractors " but little, and cares as little for their claim;" and winds up thus:

The News, with regard to this matter, is not The News, with regard to this matter, is not the special advocate of any man or interest.

But we have thought proper to urge the city to settle with Messre. Hasbrouck & Cogro. Let their claim be just or otherwise, it is all the same. If the city owe these men, we have said, and say now, let them be paid; let them be settled with equivally. tled with equitably.

Taking the News at its word, we felicitate it at having at length attained the Sentinel's ' platform" on this question. It now urges the City to do, precisely what the Sentinel has urged upon it these two months past, viz: to settle promptly, fairly and equitably with the Harbor Contractors and pay them every dellar that is their just due.

But not content with sulogizing its own impartial and disinterested course in the matter, the News travels out of the record to assall the Sentinel. It insists that our only object in agitating the subject is to make political dapital; complains that we have " turned against the men of whom it (we) had been regarded us the especial friend," and obarges that we are willing to let the Harbor enterprise, of which we have invariably spoken well, "terminate in dishenor to the city and ruin to the city's creditors." If we are, then the News is an accessary, since it professes to desire producty what we are urging viz: a fair, prompt and equitable settlement with the contractors. There can be no "dishonor" in this to either party, and if "ruin" be the result to the contractors, assuredly the fault is not with the

Lastly, the News layors us with the following intangible and mysterious insignation: "Our neighbor intimates that a "cat is in the meal"—and further intimates that the "News" is watching the cat. We assure him, however, that, as far as we are concerned, or any of our religious and the measure of the cat. that, as far he we are concerned, or any of our political or personal friends—so far, as we know —there is no ground whatever for his suspicious. Oan the addrer of the "Sentinell" say as much for himself? Many shrowd individuals are "guess.

Now as the Sentinel never intimated that there was "a cut in meal," or that the News was watching it; nover said anything about its " personal or political friends" being interested, one way or the other, in the matter; and has neither indulged to, or instanated any " suspicions" on the subject, we are entirely at a loss to know what the above paragraph means, and must be content to wait until some of the many shrowd individuals" about the News office "guess" it out. For our own part, if "personal, or political" considerations were alone to be regarded in this matter, we should be found advocating the claim of the Harbor Contractors, and thus be spared the 'unpleasant and seemingly negracious duty of objecting to a demand, urged by friends, because we cannot satisfy ourselves that the demand is a just one. Lot but that be made to appear, by the verdict of any fairly constituted tribunal, referees, jury or Court, and no one will more cheerfully acquiesco in the result than " the editor of the San-

# The Captol Enlargement.

There is a "bitch" about the enlargement of the Capitel. The work has made such slow progress during the winter, that the Governor has called the attention of the Legislature to the subject, and the Committee on State Affairs are looking into it. We are not without hopes that the investigation may result in stopping the work, abandoning the present blan and committee that the investigation may result in stopping the work, abandoning the present blan and committee that the investigation may result in stopping the work, abandoning the present blan and committee the investigation result in stopping the work, abandoning the present blan and committee the investigation result in the result is to the result in the result in the result in the result in the result is the result in the result is the result in the the work, abandoning the present plan and commencing mow. The truth is, that the plan adopted by Governor Bassirond and Secretary Midnesota-now knocking in vain at the doors Jones, hast year, was by no means the best, though probably the most expensive, of these submitted to thom. It purported, indeed, to be complete in itself; but was, in reality, a frequency ment; the design being, to add, eventually, three more similar "collargements" to the only being to the design being. This is the and would have three more similar "colargements" to the old Capitol building. This, in the end, would have made a very large, rather eightly, and exceedingly costly editioe. But, for the proposed four wings could be built, for the reason that the law expressly limited the expenditure to \$102,000—barely enough to builtd one wing.

Looking at the main building and the plans for the "enlargement," while in Madison less week, we came to the conclusion that its class of the conclusion that its conclusion that its class of the conclusion that its conclusion that its conclusion that its class of the conclusion that its conclusion that its conclusion to the conclusion that its conclusion to the conclusion that its conclusion that its concl

looking at the main building and the plans for the "enlargement," while in Madison last week, we came to the conclusion that it would be a waste of time and money to try and patch up the old Capitel, and that the shortest, best and, in the end, cheapest course would be, to pull down that edifice entirely and erect a new one. This would cost, early \$200,000, and occupy two years. In the interim, the State Officers might easily precure temporary quarters at Madison, or, with the Legislature, could sejourn in Milwaukee, where we would guarantee them reom and welcome. Probably no hetter season than the present, to build a new Capitel, will occur for many years. Stone, Brick, Lumber and Labor will be cheaper this Spring than they have been for a long time. We do not believe that the proposed "enlargement" can be completed in much less time, or as much less cost, than itwould take to build a new Capitel, which, it the latter course be resolved upday we shall have, instead of an rold, patched—upgar and welegant and stately structure, worthy ite a new, elogant and stately structure, worthy do grace the unrivalled site which it would orown.

The News of Sunday morning commences its briof and reluctant account of the Anti-Lecompton demonstration on Saturday evening last, by truly statiog that the Hall was "crowded, and the audience orderly and attentive throughout;" and it closes its article with the remark, "but with the reluctures manifested to admit Minneon the whole we regard the meeting as a failure." We think that the Newshas good reason so to "fergard" it. The Milwaukee News publishes a lengthy article urging the Beole of Wisconsin to "stand by the President." We look upon this as a work of superogation, for men of all parties "will stand by the President," as such, and support him-in-every right measure; but no man ex-uept one who can be bribed will undertake to sustain him in an attempt to enforce a measure upon an unwilling people. Even the Democracy of this State will never, as a body, be fool-hardy enough to attempt to sustain his iniquitous Kansas policy; albeit they will stand by him in carrying through every right Democratic measure. Such at least, is our position.
